More Deer Reported in Crawford Co.

Firearm deer hunters in Crawford and surrounding counties can expect an increase in deer kills compared to the last two years, says Ray Perez, DNR wildlife biologist for Crawford and Kalkaska counties.

Perez says deer losses from last winter were light over most of the area and fawn production this spring was excellent. He also says archery hunters reported seeing more deer here than last year and have taken more deer than before.

"Hunters in Crawford County will do best in areas behind Camp Grayling, oak areas around the mortar range, oak and cutover areas between Four Mile and Seven Mile roads, and the military areas north of North Down River Road and south of County Road 612," says Perez.

Hunters in the military lands are reminded not to handle

any live ammo or duds they may encounter while hunting.

"In Kalkaska County, the best hunting will be the southern part of the county, which includes that area south of M-72, east of Sunset Trail, north of Fletcher Rd., and west of Camp Grayling. Deer are making heavy use of oak ridges and cutover areas," Perez says.

He also reports counties to the south and east have larger deer numbers this year.

"Roscommon and Missaukee counties will provide some of the better hunting in the district this fall."

Due to last year's severe winter weather in December and January, there will be a larger number of spikes this fall according to Perez. He says hunters will have to look harder to see antlers but there have been some nice racks observed around the Grayling area.

Successful deer hunting patches will be given to hunters who bring their deer into DNR field offices to be checked. The Grayling office will be open the weekend of November 17-18 in addition to regular business hours.

Once again, the Grayling Chamber of Commerce will be sponsoring an Orange Coat Round-Up with the Buck Pole at Skip's Sport Shop along M-72.

Hunters can win up to \$1700 in prizes November 15 and 16. The largest buck — measured by antler only — will win a rifle and scope valued at more than \$300. The first ten hunters to bring a buck to the pole win \$50 Savings Bonds. The second ten win \$10 cash. The first woman hunter, youngest hunter, and oldest hunter to bring in a buck also collect \$50 Savings Bonds. The heaviest buck hung also wins a \$50 Savings Bond. Hunters from Crawford and adjacent counties are eligible and one buck can win one or more prizes.

2nd Annual Celebration of Lights Begins In Grayling Friday, Nov. 23

On Friday, November 23rd, at dusk, the Grayling Promotional Association will be bringing Santa to town and the Christmas season will officially begin in Grayling.

At the same time Santa arrives, thousands of tiny white lights will be turned on in many business places, township and county offices, schools and the hospital.

If things go according to plan, the lights will stretch from the I-75 Business Loop on the South, out M-72 west, M-72 East, and Old 27 North.

The GPA would like to encourage all the residents of Grayling to get their outside decorations and lights up early and join with the business community to "Light Up Grayling".

GPA believes that if the community works together, and everyone decorates outside and turns on their lights at dusk on Nov. 23rd, that Grayling will feel a real glow of togetherness. If you can't get your lights up, just turn on your porch light.

Developmental Class Helps All Kindergarten Classes

By Jon Thompson

A new Kindergarten class designed to help slower developing students has also benefited five regular Kindergarten classes in the Crawford AuSable School District.

In its first year, the developmental Kindergarten has 14 students from all over the school district.

Frederic Elementary principal David Hawkins, who helped establish the program here, said the school district needed an alternative for young students having difficulty meeting district objectives.

Hawkins called other school districts with developmental programs, acquired information at the state education conference, and visited Grand Haven School District for two days to observe their program - one of the longest running developmental programs in the state (13 years).

Last spring during Kindergarten round-up, the district measured the future students in five areas: fine and large muscle skills, visual perception, auditory development, verbal and non-verbal command, and the ability to perform complex tasks (integrating all the above systems).

"The Miller-Map Assessment Test we used is not an intelligence test. It's a development guide," Hawkins stressed.

The Miller-Map Assessment Test measured 400

students in all nine census regions of the United States to find guidelines to show when children have usually developed certain skills from ages 2 years 9 months

to five years and 8 months. C.O.O.R. Intermediate specialists helped with the testing and Crawford AuSable officials think it See Kindergarten on Page 18

'Houston Chapter' Nets 46 Members For Booster Club

It started as a joke when Grayling Youth Booster Club president Gerry St. Germain kidded his brother, Sam, a resident of Houston, Texas, that he wasn't recruiting enough people for the Booster Club down there.

Sam had the last laugh, however, when membership for the Houston chapter of the Grayling Booster Club recently reached 46. The Houston members celebrated with the 1st Annual Banquet of the Houston Chapter of the Grayling Youth Booster Club where they passed out membership cards.

Sam St. Germain and Donna St. Germain are the only former Grayling residents in the Houston chapter. Other members are James and Cheryl McGowan, Robert Scruggs, Gail Cosby, John and Betsy Gant Wittenmyer, Scott and Debbie Vincent Tessmer, Frank Bean, Gerald Coley, Bradley Bingham, Art Pilley, John Kilpatrick, Don Thomas, Walter Kolokowski, William and Linda Baker, Crystal Wright, Stan, Carol, Ronnie, and Cindy Pfeiffer, Sharon Wray, Michael Phillips, R.C. Faculak, Terry Vlasich, Jimmy Griffin, Barbara Audish, Norma Keener, Pat and George Hintz, Mike and Dixie Lipscomb, Christopher Wilsher, Stephanie and Steve Matthews, Kristin Sager, Mike Gallien, Pat Stangle, Ellen Campbell, Mary Rowland, Sue Syrokusz, Robert Gerringer, Melanie Bean.

The Grayling Youth Booster Club has about 400 individual members in Grayling with another 200 business memberships. Memberships are \$5 to join and \$2 each year after.

Parents Informed of Drug Undercover Work at GHS

The Crawford AuSable School Board issued the following public statement at their regular meeting Monday, Nov. 12, concerning the county-wide drug bust Oct. 29th.

The Crawford AuSable School District Board of Education would like to publicly thank the Crawford County Sheriff's Department for the thorough and professional manner in which they conducted the county wide drug investigation which culminated October 29. Although the major thrust of the investigation was to identify and curtail drug operations within the county, the school district felt that it was within the best interests of the county that they cooperate with the Sheriff's Department request to place an undercover agent in the high school this fall. It was the feeling of the deputies and also of school authorities that any drug related problems within the high school would prove to be relatively minor, but school authorities welcomed the opportunity to verify that feeling.

The results of the county wide operation have been well publicized, but the Board of Education feels that it is important to emphasize the following findings directly related to Grayling High School:

1. Any drug problem at Grayling High School is relatively minor. The undercover agent in eight weeks of operation within the school was able to uncover only the sale of two marijuana cigarettes and the sale of caffeine pills advertised as amphetamines.

2. A number of students boast of the fact that they use drugs on weekends or evenings, but there is no substantiation that the boasts are true. They may simply represent

a case of young people attempting to gain recognition or acceptance within a crowd.

3. Parties with alcohol are being curtailed and are taking place in private homes and selected outdoor sites, evenings and/or weekends. The undercover agent complimented the school staff in their ability to learn about the existence and whereabouts of the parties before they occur and their willingness to report that information. The sites of parties are moved around with little advance warning because of a fear of being discovered resulting in large numbers of those intending to attend being unable to find the parties.

4. The undercover agent recognized that it was not the school's responsibility, nor was it even reasonable to expect that the school can control what students do on weekends or before or after school hours.

5. In the undercover agent's report, the following statement was made: "You have a very good school...the teachers and staff are very sharp individuals, and to me personally I feel they deserve and earn their salaries well...classes are hard enough that you have to study and think to pass... the teachers dealt with the students on a one to one basis which the students could relate to and they really seemed to like and enjoy his class." The agent lauded the staff for their teaching effectiveness and for their personal concern and caring for students.

6. The undercover agent complimented the student body in the degree of pride that they take in the school and went on to state "You've got a good school, good staff, and

County Considering Hiring Part-Time Administrator

Seeking to reverse a deficit that could grow to \$100,000 by the end of 1984, the Crawford County Board of Commissioners are considering hiring a part-time county administrator.

The commissioners voted 4-1 at their meeting October 25 to put the cost of a part-time administrator in the 1985 budget.

Chairwoman Jeannette Kitchen estimated the cost at \$10,000 to \$12,000 a year. She felt the position would more than pay for itself through savings for the county.

The county has \$8000 in its budget for union negotiations and Kitchen felt the new administrator should be qualified to handle that duty.

She also said an administrator would save the county money through purchasing.

"No one right now at the county level really has the time to sit down and concentrate on finding the biggest savings in purchasing various supplies used in all the county departments," Kitchen said.

Commissioner Mary Harland said the administrator could help prepare the

budget and attend some meetings in place of commissioners thereby saving per diem cost paid to commissioners.

Harland, who made the motion to include the funds in the 1985 budget, said it was just a proposal to consider at budget time. Commissioner Andie Neilson voted against it. Commissioners Bud Halstead and John Miller were absent.

Kitchen said a lot of business people in the area have talked to her about the idea.

Commissioner Don Welser said he agreed with starting with a part-time administrator. "The county could use the help just like the city of Grayling. I think Jerry Morford (the city manager) does a great job there," Welser said.

Welser suggested the county get policies and procedures for an administrator from other counties.

Kitchen said Montmorency County started with a part-time position and now has a full-time administrator.

From Our Corner...

If you wondered about all the different styles of type in the Avalanche last week, you can relax, it wasn't your eyesight doing tricks on you, it was the fault of our typesetting machine the compugraphic breaking down four days, Friday, Saturday and still on Monday and Tuesday so that we were unable to get any type out of it...if it hadn't been for the generosity of Tom Hamp of the Houghton Lake Resorter letting Rena come down and set type on their machine Monday and Tuesday, and Ron Grendel owner of the Image Factory in Gaylord letting his gal Friday set type for us on Monday we don't know what would of happened...a Compu-graphic service man arrived here around 5:30 p.m. Tuesday and fixed the machine which enabled Jon to cover the girls' basketball game and also the election results and set the stories early Wednesday morning so our readers got their favourite paper just like normal...we may add though...we had quite a few anxious moments wondering if we were going to be delayed in the publication...we have been told, never worry about anything that you have no control over...but dang it all, it's easier said than done...

Another deer season gets underway this Thursday, November 15th that should give the economy a shot in the arm both in Crawford County and points north...the red coats as they were referred to for so many years have taken on the color of orange, (which experts say shows up more in the woods than red) will be invading the county in search of the wily white tail...reports are that the antlerless deer take will be down this year, but the buck take looks to be better than last year...reports are that quite a few deer are in the area, so it will be up to the hunter to be in the right spot at the right time...it is hard to say how many hunters will show for the opening seeing how it is in the middle of the week, although, there are some that plan their vacations around the season so it doesn't matter what day the 15th falls on...

We can remember a few moons ago how main street would be flooded with hunters the first three, four days of the season...possibly we can look forward to something like that this year...there wasn't too much color for tours this fall and what color there was didn't last long during September and October, in fact for the most part they were two dreary months...these two months are supposed to be two of the nicer ones of the year in Northern Michigan with the brilliant color with the nippy nights and sunny days but, this year they were sort of blah...about all we can expect now is snow...and to think the only thing the ol' fella does with it is shovel, and very little of that...the sun is too low in the sky now to give out alot of heat, except it is starting to help our solar panel...that is when it shines...we can do without winter...we're not the outdoor type...

How about those Viking gal cagers...as we write this they are 16-2, clinched the Michigan Huron Shores Conference girls basketball title and from what we understand they haven't had that much support from the Grayling fans...maybe it takes something like this, winning a title to get people interested and support them other than their immediate families...so, belated as it may be, we give the Tip of the Derby to Coach Tom Mills and his assistants, and a whole bunch of roses to the gals that made the dream come true...we wish you much luck in tournament play...

An Idle thought...I hope George, Lamont and Jack are alert Friday afternoon, otherwise the Ol' Fella may spend Thanksgiving in the cooler...we don't have too many friends and we're going to need bondsman that day...who ever decided to give Irvin a Keystone Cop badge, gun and handcuffs is beyond me...he's the one that should be going to the slammer...

This about takes care of this week's turkey...we talked to our Buckeye family Saturday night and John is coming for the opening of deer season and then come back with the family Thanksgiving...so to T.J., Stefany and Amber goodnight...and to all our readers have a nice weekend and good luck to the hunters...

Last Friday the two kindergarten sections enjoyed a real train ride. The party left Grayling at 3 p.m. en route for Roscommon, where the group was met by cars driven by parents. The youngsters had a great time on what was the first train ride for most of them. They inspected the engine and generally got an eyeful. When they got off the train in Roscommon, they were served a lunch by interested parents, and so, all in all, it was quite a party. The parents who drove down to bring the wayfarers back were Mrs. George Hilton,

Mrs. Carl Hanson, Mrs. Frank Bond, Mrs. Harry Souders, and Mrs. Kessler. The whole expedition netted the Michigan Central one fare to Roscommon, one way.

Mr. and Mrs. Henry Bousson and grandsons Carl Henry Nielson and Dick Rasmussen spent Sunday with the Frank Tetu family in West Branch.

APATHY IS OUR TOWN'S MOST SERIOUS PROBLEM TODAY...BUT WHO CARES?

The Bible Speaks

From Calvary Baptist Church

THE HEART OF BABY FAE

All of us have seen on television the animal lovers carrying signs of protest outside the medical building where modern medical technology will lead us. But is it wrong to use animal organs and tissue for human health and life?

A professor of Philosophy from North Carolina State University has stated: "The most fundamental issue is whether medical procedures with baboons are objectionable. I think they are because they treat the baboon as if the animal exists as a resource for humanity. The baboon has rights. The baboon doesn't exist for us; the baboon exists for the baboon." Any humanistic evolutionist must agree that this man is a very logical thinker. If we evolved from animals, then they have rights also.

Now why has there been no objection to the use of pig-heart valves to replace human-heart valves? Are pigs low enough down the evolutionary chain to have no rights? We have no problem with other foreign matter used in the human body. False teeth and wigs have been around for years.

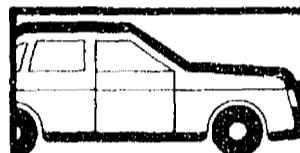

God created man in His own image and gave him dominion over all the animal world. Genesis 1:26. God created animals for the benefit of man. God first taught man to use animal sacrifice for worship. Later,

He taught man to use animals for food. God has declared that all animal life can be considered as food for man. Acts 10:9-16. Animals do not have rights independent of either God or man. We should be humane in our treatment of all animals, but not unreasonable.

We wonder if the humanistic animal lovers would still have protested if the procedure between baby Fae and the baboon had been reversed? Let us suppose the mother of baby Fae had exercised her woman's rights to abort baby Fae, and one of her healthy organs had been donated to save the life of a dying baboon down at the zoo?

Compatibility in animal/human transplants does not prove a common evolutionary source any more than it proves a common creator who used similarity of design. The rights of this creator are our primary concern. The humanists would have made baby Fae's rights subject to first her mother's rights, and then to the rights of a baboon. One strong argument remains to support the evolutionary hypothesis, the functional similarity between the brain of a baboon and the brain of an educated humanist. One mystery remains, does the baboon brain suffer from underdevelopment, or does the humanist brain suffer from degeneration? Romans 1:21-32.

Capitol Commentary

36th District
Sen. Connie Blinsfeld

In a recently released report, the U.S. Census Bureau reported that for the first time in 12 years, federal tax revenues declined. Between the years 1982 and 1983, federal tax income went down 5.9 percent.

As a result of President Reagan's 1981 tax cuts, personal income tax revenues were down 3.1 percent.

Total tax revenues of \$665 billion for 1983 reflected a reduction from the 1982 tax collection level of \$671 billion. Those amounts translated to a per-person contribution of \$2,963.73 in 1982, which declined to \$2,845.38 in 1983.

Closer to home, however, Michiganians paid more taxes. From the 1982 fiscal year, total tax revenues increased 13.2 percent. That figure, representing \$775 million, is considerably more than the 5.9 percent by which federal revenues decreased. The Census Bureau report also showed that state tax revenues across the country only went up 5.9 percent, which was the smallest increase in 25 years and is the same amount that federal tax collections went down. Our increase is more than twice that amount.

In addition, personal income tax revenues and corporate tax collections throughout the nation rose only 3.5 percent. During the fiscal year 1982-83 period, Michigan's personal income tax revenues rose 23.3 percent.

It is true that Michigan experienced financial difficulties in the last several years that required some additional revenues. However, it is unfortunate that other states' increases in tax revenues closely parallel the reductions made at the federal level, while Michigan's increases in personal taxes are so large. If figures continue to hold as early estimates indicate, Republicans in the Senate and House will move forward with legislation to roll the state income tax level back to 4.6 percent. That will, hopefully, bring our state closer to national levels.

Completes Air Force Training

Airman Gregory A. Boucher, son of Elaine L. Ameluxen and stepson of Bradner R. Ameluxen of 109 S. Fifth St., Roscommon, has completed Air Force basic training at Lackland Air Force Base, Texas.

During the six weeks at Lackland, the airman studied the Air Force mission, organization and customs and received special training in human relations.

In addition, airmen who complete basic training earn credits toward an associate degree through the Community College of the Air Force.

The airmen will now begin on-the-job training in the supply field at K.I. Sawyer Air Force Base, Mich.

He is a 1983 graduate of Gerrish-Higgins High School, Roscommon.

ELEMENTARY ELECTION — Grayling Elementary 2nd grader Jon Welt cast his vote Election Day on a computer set up by Kindergarten teacher Pam Williams. The elementary students also gave a landslide victory to Reagan as they cast 402 votes for the Republican ticket and 100 votes for the Democratic ticket in a mock election featuring only the two major parties. Fuel Gauge

A fuel gauge that does not always read the correct amount of fuel in the tank usually has a bad electrical connection. Check the ground wire first, if corroded, remove the screw and clean. In most cases this will correct the problem.

Women's Aglow

The Grayling Women's Aglow will be having their meeting Saturday, November 17, in the classroom at St. Mary's Church on Spruce Street. The meeting will begin at 9:30 a.m. with refreshments. From 10:00 - 11:00 a.m. the ladies will join in worship and song.

Mrs. Helen Mack of Grayling will be the speaker this month and she will be ministering to the ladies from 11:00 a.m. through approximately 12 Noon. Mrs. Mack has been a bible teacher for many years and has helped and inspired many people with her knowledge of God's word. All of our area ladies are invited to share in this time of fellowship.

Services Held For Eleanore (Bugsy) May

Eleanore J. (Bugsy) May, age 60, of Rochester, formerly of Grayling, died November 5, 1984. Funeral services were held Wednesday, at 11:00 a.m. at St. Paul's United Methodist Church, Rochester. Burial was in Mt. Avon Cemetery. Survived by her husband, Norman E., one son, Michael J. of Glencoe, Illinois, granddaughter, Laura, one sister, Mrs. Richard (Jane) Sittler of Erie, Penn. She was a member of the American Association of University Women, the Rochester Junior Women's Club, St. Paul's United Methodist Church, Women's National Farm and Garden Association.

The family would appreciate memorials to Michigan Cancer Foundation.

High School Students Reflect Local Vote

A mock Election by Grayling High School students held before Election Day showed nearly the same results as the real election November 6th.

With 88 percent of the student body registering to vote and 70 percent of those voting, 338 students voted for Reagan and 58 voted for Mondale.

Jack Lousma received 209 votes to only 138 to Carl Levin reflecting the support Lousma received in northern Michigan.

State proposal B passed easily at the high school 317 to 86 and proposal C was defeated 216 to 183 similar to state trends. Proposal A was passed 225 to 172 at the high school, however, the opposite of state results.

The Hanson Hills and senior citizen proposals both passed at the high school. Hanson Hills won 291 to 111 and the Commission on Aging millage won 290-109.

Miss Grayling Pageant Contestants

The deadline for Miss Grayling contestant applications has passed and Grayling is again fortunate that they will be represented by one of eleven lovely ladies.

Our contestants this year are: Michelle Barber, Barbara Fitzgerald, Felicia Galvani, Vickie Kea, Kimberly Kinsora, Kris Laudenslager, Lee Ann Lovell, Vikki Luther, Jami Shepler, Brenda Rochette, and Shauna Ryan. Ten of the girls are seniors at Grayling High School and one attends Kirtland Community College.

Pageant committee plans call for an orientation meeting sometime before Christmas vacation, with the real work commencing on January 2nd. It will be a busy four weeks for the girls culminating with the pageant on Saturday, January 26th.

The winner will be officially introduced at the Kick-Off Dinner for the Winter Sports Festival on January 31st.

Vet's Notice

The American Legion Department Veterans service officer will be in the Grayling American Legion Post on November 19, from 1 p.m. until 4 p.m. to assist all veterans and their dependents. This will include assistance with completion of the annual income questionnaire cards.

This is a free service and the veteran need not belong to the American Legion.

Wednesday Services for

Joseph Bommarito

Joseph A. (Tony) Bommarito, 62, of Maple Forest Township died at his residence, Sunday, November 11, 1984. Funeral services will be held at 1:00 p.m. Wednesday, November 14, at the Sorenson Funeral Home, with the Bishop Dohn Weaver officiating. Burial will be in Maple Forest Township Cemetery.

Mr. Bommarito was born in Columbus, Ohio on February 18, 1922, and has been a resident of Crawford County for the past five years, coming here from Detroit where he drove truck for the U.S. Trucking Company.

He is survived by two daughters, Gale Tesolin of Highland, and Judith Demankowski of Howell, and four grandchildren.

Rex Hunter, 50 Dies in Illinois

Rex A. Hunter, 50, of Rich-ton Park, Illinois, son of Matilda Hunter of Grayling and the late Amos W. Hunter, passed away late Friday, November 2, 1984, in Chicago at Olympia Fields Osteopathic Medical Center.

A service was held at Laine-Sullivan Funeral Home in Park Forest, Illinois, on Tuesday, November 6, and graveside services were held Wednesday, November 7, at Elmwood Cemetery, Grayling. Jay Doty officiated at the graveside services and following the services, lunch was served by the women of the R.L.D.S. at the church on North Down River Road.

Hunter was born October 21, 1934 in Grayling and graduated from Grayling High School in 1952. Enlisting in the Army, he served until 1955, most of which was spent in Germany. He graduated from Michigan State University following his military service and had been employed by Sears Roebuck and Company, both in Bay City and Chicago.

He was a member of the National Rifle Association.

Surviving, besides his mother, is his wife, Anneliese, two sons, David and Michael of Park Forest, one sister, Julie Webster, of Carson City, Michigan, four uncles and one aunt.

Attending the Chicago services were Matilda Hunter, Julie and Ben Webster and Roy and Marge Hunter of Bancroft.

Out-of-town relatives attending the Grayling services were Willard and Hazel Haines of Manton, Dorothy McClanahan, Marian Wills, and Viola Witter of Flint, Steve and Irene Stephan of Cadillac.

State legislators only second

by Richard Millman

A WHILE BACK, I wrote in this space about the present activities of the Michigan State Officers Compensation Commission (SOCC), currently studying the pay levels of Michigan's elected public officials.

The SOCC is reviewing studies and conducting public hearings before submitting its report during December on what these officials should be paid for the next couple of years.

My recent essay indicated how Michigan ranked among nine comparable states — New York, California, Pennsylvania, Illinois, Ohio, Minnesota, Wisconsin, Indiana and our own Michigan — in pay for state officials.

The answer, in general, was "quite well." For example, state legislators at \$33,200 a year were at the top of that nine-state list.

But how about nationally? Where do Michigan lawmakers rank among all 50 states?

Not quite as well — but not bad. Only Alaska, at \$48,000 a year, pays its state lawmakers more generously than Michigan does.

MICHIGAN'S pay scale is not high enough for legislators, according to Rep. Gary Owen, speaker of the Michigan House and top Democrat in the legislature.

Owen reported at a Michigan Editors' Day conference recently that his Democratic party is having trouble attracting top-level candidates for the legislature because of the low pay level. He thinks more money would improve the breed of lawmaker, and would attract more professional people, more business people and more talent overall to run for office.

Going part-time is not the right answer either, according to Owen. He claims going part-time would open the lawmaking process to undue influence from special interest groups, and — because the pay level would be even lower than the present \$33,200 a year — would result in less talented people seeking office.

At the Same Editors' Day session, Sen. John Engler, Republican senate leader, disagreed. Engler indicated in his view that returning the legislature to a part-time

basis would attract more of the professional and business types Owen was seeking because such individuals would not have to give up entirely life outside the legislature.

Engler also claimed that a part-time legislature would attract more women candidates, too. He may have a valid and oft-overlooked point.

Predictably, neither Owen nor Engler would pinpoint a pay level they favor.

"How much money would attract top candidates," Owen was asked; he dodged the question. "How much should legislators be paid," Engler was asked; he, too, side-stepped.

The SOCC cannot dodge the question, however. Its report is due in December, and the legislature must take action in February. Without any action, the SOCC recommendations will go into effect.

PEOPLE WHO GROW older (and that's all of us, to one degree or another) usually get a kick out of the recurring lists of conditions headed "You know you're growing older when..."

Hopefully, the sense of humor is among the last to go. Therefore, lifted from Rotarian Magazine is a recent listing.

You know you're growing older when: ...everything hurts and what doesn't hurt, doesn't work.

...you look forward to a dull evening.

...the little old gray-haired lady you help across the street is your wife.

...you sink your teeth into a T-bone steak, and they stay there.

...the gleam in your eyes is from the sun hitting your bifocal glasses.

CAPITAL PUNISHMENT (it is reported) is when the government taxes you to get capital so that it can go into business in competition with you, and then taxes the profits on your business in order to pay its own losses.

THE BIGGEST problem with having nothing to do is that you never know when you're done.

Subaru Deduct-A-Ski Program Will Take During Sept., Oct. & Nov.

September, 1984...September 1, 1984 marks the start of Subaru Deduct-A-Ski, a charitable program which benefits Special Olympics nationwide. This annual event encourages skiers to turn in their used ski clothing and equipment to R & L Frye's Cross Country Ski HQ., Higgins Lake through November 1984, to receive credit for a tax deductible contribution.

The premier national Subaru Deduct-A-Ski effort took place in October 1983 and involved the participation of over 700 ski shops, members of the ski industry, and thousands of consumers across the country. Their combined efforts netted over \$330,000 worth of used ski merchandise for Special Olympics. The decision to expand the program was based upon the month long success of the 1983 Subaru Deduct-A-Ski program.

"The Subaru Deduct-A-Ski program widens our involvement and reinforces our longstanding commitment to the sport of skiing. Subaru is proud to join with Ski Industries America in sponsoring the second year of this successful national program," said Alan B. Ross, vice president of corporate communications, Subaru of America, Inc.

According to David Ingemie, president of Ski Industries America, "Due to the enormous success of last year's effort we've expanded

the 1984 Subaru Deduct-A-Ski program to run for three months, from September through November, 1984. This will boost ski industry participation and strengthen consumer donations in all areas of the country. We'll have more people than ever before involved in this worthwhile effort."

The Subaru Deduct-A-Ski program, sponsored by Subaru of America, Inc. and Ski Industries America, was designed by Ski Industries America to provide skiers with the incentive to donate their used ski merchandise to the program. The merchandise is then distributed to worthy organizations, such as Special Olympics.

In an effort to involve more of the mentally retarded in the sport of skiing, Walter Malmquist, winter sports director, Special Olympics, Inc., recently noted, "With the Third Annual International Winter Special Olympics Games just months away, the need for quality ski clothing and equipment has never been greater."

Subaru, an American company, is the official car of the U.S. Ski Team and the U.S. Ski Association.

"SERVING GRAYLING FOR OVER 55 YEARS"

Resource Review

By Bruce Patrick
Conservation Officer

I am going to try something new. I am going to try to write a regular column for The Crawford County Avalanche.

I have thought of this for a long time. My colleague Wendell Hoover's "Doodles From the Tall Timber" column was the germ of this idea, which grew as I perceived a need for a forum to present a new service to the people of Crawford County from the Department of Natural Resources Law Enforcement Division. I hope to discuss laws, department programs and policies which effect you as well as answer questions you may have about the Department.

If you have questions or concerns, please submit them, in writing to me either at the Avalanche office or the DNR Field Office, Box 507, Grayling. I am going to adopt the same policy as the paper regarding letters — they will not be used unless the writer's name and address are included. Names will not be divulged, but must be included.

Hopefully, the subject matter will be topical. Other Department employees will be consulted and their points of concern aired. I sincerely hope this is a worthwhile effort for everyone.

Now, in an attempt to remain topical, we turn to deer season. As many of you read this you are thinking of opening morning and the big buck you saw last month. I want to wish you all the luck in this world, but to caution you not to let a desire to kill a deer become the overriding factor of the next two weeks. You don't have to kill something to have a good hunt.

The last few hunting seasons have been relatively safe ones for Crawford County and we certainly all hope that trend continues. The most important item you take with you when you hunt is your common sense — please use it. And remember the three most important hunting safety rules: 1) Treat every gun as though it were loaded; 2) Always keep the muzzle pointed in a safe direction, and 3) Never aim at something you don't want to shoot. Even an experienced hunter can have lapses — don't let it happen to you.

Study Shows Electrical Supply Sufficient to 1990's

Warren M. Hoyt, Executive Dir., MPA

Current state electrical supplies are sufficient to meet consumer demand up until the early 1990's, a study released by the Department of Commerce reported.

However, there are differences on how much demand will grow after that time and current emphasis on policy makers should be on finding the lowest cost alternatives to maintaining the state's electrical needs, the study said.

Following the release, Governor James Blanchard issued a statement directing the Commerce Department to conduct a study to find the least expensive way to help produce future power needs.

"Michigan's citizens and businesses must be assured that an adequate and reliable supply of energy to match the needs of our growing economy will be available at a reasonable cost," he said.

The study, conducted by the department's Energy Administration, concluded that at the current rate of retiring power plants, the state will have a sufficient electrical supply through the 1980's and into the 1990's.

However, the estimates of demand needs from Consumers Power Company, Detroit Edison Company and the Public Service Commission vary widely for later in the decade, the report said.

Nor was the data sufficient to determine which method of producing power would be best for the state.

The report recommended that differences on forecasting power needs be ended, that the two large utilities — Consumers and Edison — should consider smaller sized generating plants than currently are being built, that legislation be considered to allow advance review of the costs of meeting future electrical needs and that a detailed

study on all electrical generating options, and their costs, be conducted.

Great Lakes May Be Next "Sunbelt" Area

The Great Lakes states will be the country's next economic "sunbelt," a California engineer told a recent public hearing on Michigan's infrastructure.

Franklin Argady also praised Michigan as the first state to define its problems on a local basis and said society had the best opportunity of the last 50 years to "rebuild the country for the next 100 years."

Argady, president of URS Engineering Corporation in San Mateo, told Governor Blanchard's panel of infrastructure that Michigan, Illinois, Indiana and Ohio were set to become the next region of significant economic growth.

Factors appealing to business, he said, included a stable labor force and an abundance of resources such as water.

States were going to have to go out to high technology industries, such as robotics manufacturing, "and convince them of the propriety of coming to these states."

Repairs and new development will cost an estimated \$750 billion nationally over the next 15 years, he said.

But in developing solutions to needs of essential government facilities, states should not count on unlimited aid from the federal government.

The cutback of that supply is due both to political pressures and because, in the past, many federal programs have not worked.

The governor's committee is studying ways to improve the state's decaying infrastructure which included roads, bridges and sewer systems.

Former Students in CMU Theater Performance Dec. 9th

The Crawford County Arts Council proudly welcomes to Grayling the Central Michigan University Players in their Windows Program 1984 theatrical performance, "The Caucasian Chalk Circle", by Bertolt Brecht, one of modern Germany's greatest playwrights.

"Chalk Circle" will be presented on Sunday, December 9, at 3:00 p.m., in Grayling High School's Joseph Stripe

Auditorium. Because the production is being underwritten by the CMU Windows Program, admission to the play is free. Donations to the Crawford County Arts Council are welcome to cover local expenses.

"The Caucasian Chalk Circle" is a colorful two-part fable containing spectacular and dramatic action. First produced in 1948, it is the last and most epic of Brecht's major works - as well as the one most complex in structure and eclectic in form: The plot and some of the language are Biblical; the technique of narration Japanese; the construction cinematic; the conclusion didactic; the wedding scene a reflection of the Marx Brothers' "A Night at the Opera." In the nearly forty years since its premiere, it has become an established classic of world theatre.

Two Grayling High School graduates will be featured in "Chalk Circle": senior Susan Prause, daughter of Gayle Prause and Robert Prause, and freshman Troy Haag, son of William and Sherry Haag.

Bride Elect

Rose and Jim Merritt, of Mason announce the engagement of their daughter, Lynda McDonald, to Michael Waltz, also of Mason.

Michael is the son of Don and Mae Waltz of Grayling, formerly of Mason. Lynda is a 1984 National Honor society graduate of Mason High School. She will enter the Army Medical Service Corp. as a Medical Specialist and be stationed at Fort McClellan, Alabama. Lynda is currently employed at Windmill Park in Holt.

Michael graduated from Mason High School in 1979. He attended Lansing Community College and Lake Superior State College to obtain a degree in Electronics Technology. Michael is now employed as an Electronics Technician at Advanced Electronics in Mason.

A fall 1985 wedding is being planned.

Northern Lights Chapter of Sweet Adelines

"With a little more work we'll really make it to the top", claims Sharon Huss, member of the Northern Lights Chapter of Sweet Adelines.

Sharon, a resident of Grayling, has recently returned from the Sweet Adeline Conference in Flint where her quartet placed first in the Novice Quartet Competition. Other members of the quartet are Diane McMullin, Eileen Girard, and Mary Alice Whipple, all of Traverse City. Over 400 women were in Flint for the Conference and Quartet Competition.

Sharon and Mary McLean, also of Grayling, travel to Traverse each Monday night to rehearse with the Northern Lights Chorus under the direction of Dean Fisher. "It's well worth the effort," continued Sharon. "What a wonderful way to start our 30th year."

American Legion Auxiliary News

by Laurie Jensen, P.R. Director

Just a reminder to all Auxiliary members, tonight (Wednesday) is our annual monthly meeting at 7:30 p.m. in the Legion Hall. We hope that you will all try to attend. Let's see more than the usual 6 or 8 people...

Don't forget that this Sunday, November 18 is our annual Feather Bingo at the Post. Plan on having 1:00-5:00 p.m. open so that you can come down to Unit #106's annual Thanksgiving time bingo. This is always an enjoyable afternoon. Try your luck at winning our turkey's. Hope to see many of you there!

As many of you know, this week (November 11-17) is American Education Week. This happens to be the 64th year of observing Education Week in our entire nation. This year's theme is "Education Excellence: Our Nation's Strongest Defense". We feel that not only the parents but any adult should stop in to our area schools this year and see what is going on. Why don't you find out for yourself just what our schools are doing and how they are educating our children. If you don't become concerned, who will? The children of today will be the adults of tomorrow. We must make every possible effort to see that our children are prepared for their future responsibilities. I urge you adults to take the time and be sure that these students are ready. Visit our schools today.

Just a note to all of our area hunters. Our post does have an open bar. Be sure to be careful while you are out hunting that big one. Remember, if you aren't careful, there is nothing in the rules that says the guy next to you will be. The rule of the woods is, "You've got to look out for number 1." We want all of you safe so that you can spend some time with us at the Legion. While you are at the Legion, be sure to say hi to our new bartender, Marcia Canfield. Until next time, Have A Nice Day!!

Women of the Moose

At our regular meeting on November 5th we installed two new members, they were Bernadette DeHart and Marcia Canfield, we wish them a warm welcome to our chapter.

We will be having a bake sale on November 17th, from 10:00 a.m. to 5:00 p.m., ladies of the Moose are asked to bring in baked goods or handicrafts to sell for this event. Again we ask for your support so we can support our various projects. So we hope to see you all there.

Our next regular meeting will be on November 19th at 7:00 p.m.

Chamber Chatter

By Staff

The once a year Spectacular is upon us again. It's this time of year when a certain fever grips hunters like no other time during the hunting season. Duck hunters are a brotherhood of early morning experience of decoy setting, float blinds, nasty weather, and everything you touch is wet and cold. The Bird shooters are another fraternity of dog - oriented outdoorsmen who obtain a greater satisfaction from the performance of their dogs than they do from downing the game. Rabbit hunters pretty much fall into this category too. But when it comes to Deer season, we develop a new personality entirely. It's big game, big time, big trophies and good fellowship. It's man against nature and a battle of wits and survival. For some, just getting away from it all and spending a few serene days in quiet contemplation is sufficient. But for others, it's the test of endurance and skill. At any rate, the time is now and Grayling and Crawford County are ready - The Grayling Chamber of Commerce and Skip's Sport Shop are again sponsoring the Orange Coat Round-Up with the Big Buck Pole located at Skip's on M-72 West. Skip Madsen & wife Gail, John Alef II and others have put together a very inviting program for the Round-Up. Prizes totalling \$1700.00 in value are being offered to the lucky hunters who hunt in Crawford and adjacent counties. The Number One Prize is a Rifle & Scope valued at more than \$300.00 will go for the largest buck. The "Largest Buck" will be scored on horn only and measured by a Modified Boone & Crockett System. In case of a tie, the "Heavier Buck" will win. The first 10 bucks on the Buck Pole on November 15 and 16 will receive \$50.00. Savings Bonds. The second 10 will receive \$10.00 cash prizes. Prizes of \$50.00 Savings Bonds will also be awarded to the first woman successful buck hunter, the youngest successful buck hunter, the oldest buck hunter and the heaviest buck. Any combination of prizes acceptable. For instance, a successful hunter can have the first, heaviest and largest rack and really make a killing, excuse the pun. It's a big celebration for the Grayling, Frederic, Lovells communities with the center of attraction at the Buck Pole at Skip's Sport Shop - West M-72 in Grayling. Let's put out the welcome mat for our Orange Coat guests. Let us remind you of the Christmas Walk Open House scheduled Sunday, November 18 from 11:00 a.m. to 5:00 p.m. There will be door prizes, refreshments, entertainment and gift ideas for everyone. Taking part in this unique experience and you have to visit these places to see for yourself are The Icehouse Quilt Shop, Weaver's Gifts - Cook's Cottage Shop and Flowers by Josie and the Grey Goose Gifts. Enjoy yourself, enjoy this new method of gift ideas on Sunday, November 18, 11:00 a.m. to 5:00 p.m. - Merry Christmas! While driving around the area we have noticed more sprucing up and renovating of business properties such as Delights Chicken and Fish, DuBois Lumbers' new building, Grayling Floor Covering's new sign and trim on their store and the Grayling Eagle's Club has done extensive remodeling inside and paved their parking area. How nice these businesses look now, our compliments to them all. The Chamber is happy to announce the following new members who joined us this week: N'orthopedic's with Drs. Robert Halter and John Thiel who are located in the Milltown Medical Center on North Down River Road, The Grayling Lions Club and Charter Accounting, P.C. whose C.P.A. is James L. Rosen, located at 90 Fred Bear Drive. We certainly welcome them into the organization and look forward to working with them for the betterment of the community.

The Rogers City loss stopped a 14-game winning streak. In Memory of My Dad Your touch, your smile, the winking of your eyes. Your features still so clear how quickly the time passes Has it really been a year? I remember conversations, so many did we share Whether serious or funny It showed that we both cared. As past memories move on I smile and shed many a tear How quickly the time passes I say to myself "Yes, it's been a year". Sadly missed & loved Karen, Joe, Brian, Scott

Zonta

Zonta, an international
organization comprised of
executive members, is a new
club to this area. It was
founded in Buffalo, New
York, November 1919, to
provide fellowship and sup-
port to women through local
and national service pro-
jects.

Zonta's members meet at
Fred's Restaurant in
Roscommon at 6:30 p.m. the
first Tuesday of each month.

For information on Zonta,
phone Jan Wellensick at 821-
6972 or Vickie Dawson at 348-

W.I.F.F. News

On Thursday, November
1st an elected committee
met to make up a prelimi-
nary outline on our chapters
by-laws. Some corrections
and changes were made at
our November 6th meeting.
The by-laws are now ready
to be submitted to the
mother chapter in Roscom-
mon for examination and
approval.

December 16th is the date
set for our Christmas dinner.
An invitation is extended to
all W.I.F.F. members, the
firefighters associated with
the Frederic Fire Dept.,
Ambulance crew and their
spouses.

Dinner will start at 2:00
p.m. and will be held at the
Frederic Township Hall. We
ask everyone invited to
please R.S.V.P. by calling
either Ann Denno at 348-3041
or Janet Brown at 348-9804 no
later than Dec. 3rd so we
may plan accordingly.

We have plans for a Christ-
mas party for the children of
the Frederic and Maple
Forest area to be held
December 22nd at the
Frederic fire hall. I will have
more information on this in
upcoming W.I.F.F. columns.

THANK YOU

I would like to take this opportunity to extend my
appreciation to all of you who supported me in retain-
ing the offices of

Deer Hunters

Trying to hit a 10-point buck at 75 yards is hard enough — why add other worries to your hunting trip like finding motel rooms, asking land-owners permission to hunt, and other hassles with temporary lodging or hunting on someone else's land. Come to Cornell's to look at hunting lands and cabins and learn to enjoy hunting season.

CLIP & SAVE

**"I'd rather keep on
 renting my phone.
 It makes
 my life simpler."**

Of course, you can buy your GTE telephone if you prefer.
 But you don't have to.
 In fact, you don't have to do anything.
 You can keep right on renting your GTE phone. The low monthly rent is
 all you pay. And you can rent as many more phones as you like—without
 laying out a cent for purchase.
 Not only that, but when you rent, you never have to worry about repairs.
 If your phone should ever stop working (with a minor problem), we'll fix it.
 You don't pay a penny extra for repairs.
 If there's a major problem, we'll simply rent you another phone.
 It's very simple: GTE customers do not have to buy the telephones
 they are now renting.
 Period.

We make your life simpler.

Add Some International Spice to Your Life

Would you like to see someone from Greece in Grayling or from Chile in Crawford County, perhaps?

These and other places may be just names on a map unless you're part of an AFS chapter now forming in Grayling. There will be an informational meeting held at Grayling High School Library, Tuesday, November 20th, 7:00 p.m.

If you don't have the time or money to travel abroad, but yearn to learn about other nations and their peoples, this group is for you. People of all ages and walks of life are welcome.

AFS activity in a community enables local high school students to live abroad with carefully selected foreign families for a

summer or school year as part of the Americans Abroad Program. In addition, local families with or without teenagers at home have the opportunity to "host" high school students from other countries, thus learning about those lands first-hand.

AFS is not a "travel" experience only - it's a living, learning, sharing experience with scholarship assistance available if needed. The organization is 37 years old with 2500 chapters across the U.S. and hosts students from 60 countries world-wide. Join other community residents who want to hear more about AFS and learn how they can participate in the exciting opportunities this organization offers - as a potential host family, a teenage exchange student or local adult volunteer to bring cross-cultural enrichment to our area.

Travelogue Thursday

Next Grayling Travel & Adventure Program to Feature Egypt

On Thursday evening, November 15 the Grayling Community Education Program will present their next travelogue at 7:30 p.m. in the Joseph Stripe Auditorium. This next adventure will feature noted lecturer-photographer Steve Gonser who will be narrating in person his latest travelogue on the country of Egypt. Tickets will be available at the door. Price of admission is \$3.00. Passports to Adventure are still available and may be purchased at the door also. Each passport is good for 6 admissions which the owner may use in any manner he chooses. Passports are \$14.00 for adults and \$10.00 for students and senior citizens.

On Thursday evening, your guided tour of Egypt will begin with a cruise on the Nile River, the lifeline of the country. The river scenery includes fertile fields and date orchards. In Alexandria, stroll the beaches, explore the harbor and El Morse Mosque, Mantajah Palace, Pompey's Pillar and the Alexandrian lighthouse.

On the Sinai Peninsula, Bedouins gather at an oasis. In the Monastery of St. Catherine, priceless art treasures are displayed for our wonderment. In Cairo we visit markets and mosque, university and museum, and the fabulous Pyramid of Giza and sound and light show.

Luxor is famous for the temples of Luxor, Karnak, the camel market and the Colosseum of Memnon. Close by, the Valley of the Kings is the final resting place of King Tutankamen or King "Tut".

Don't miss this great opportunity to see an exciting program about a strange and interesting portion of our world. This is one of the best travelogues on the lecture tour this year. A highly educational experience for both young and old.

Deer hunters, if you can bring proof of your kill on the opening day, please be our guest for this colorful travelogue on Thursday evening.

Winter Roads Safety Hazzard To Children

For the past two years City officials and our school staff joined together in an effort to improve conditions for the young children who must walk along busy streets in the winter. Uncleared sidewalks force children to walk along roadways and this becomes dangerous as snow accumulates and the shoulder of the road narrows.

We will continue with the safety routes as established and are suggesting to parents that children walking to school make use of these routes. Extra care will be given to keeping the sidewalks and roadways in these areas clear and in a safe condition.

A. Children living S.E. of Michigan Ave.: Walk along West side of State St. and West side of Maple St. to Michigan Ave. Walk on Southeast side of Michigan Ave. to the school.

B. Children living N.W. of Michigan Ave.: Use lightly traveled side roads and avoid walking along Michigan Ave. due to heavy traffic. We suggest walking Michigan Ave. to Plum or Erie St. Cross Michigan Ave. only at corner of Erie and Michigan where the crossing guard lends assistance.

Please contact the City Office if you have any questions.

Moose News

Our Halloween party was a great success, thanks to all the people who helped.

Our Turkey Dinner on the 10th had a pretty good turn out but we would sure like to see more members attend our functions. We need all your support to make these a great success. Thanks to all who helped with this dinner.

We will be having a potluck on Saturday, November 17th at 7:00 p.m. The meat will be furnished and everyone is asked to bring a dish to pass. All members, their families and guests are invited to attend. We will be having live music after provided by Ron and Kristy. So all come down and support your lodge.

Our next regular meeting is on November 21st at 7:00 p.m. We hope to see you all there.

by GOULD CROOK

Baked Stuffed Squash

Preheat oven to 375°. Prepare 1 medium acorn squash (wash, cut in half crosswise, scoop out seeds). Sprinkle inside of squash with salt. Place cut side down in shallow baking pan. Add water to measure ½ inch. Bake, uncovered 45 minutes or until tender. Mix together:
2 tbs. chopped onion
1 ½ tbs. Sugar
1 med. apple, peeled, finely chopped
¼ tsp. oregano

Turn over baked squash and fill with above mixture. Dot with diet margarine if desired. Bake uncovered for 30 minutes more. Yield: 2 servings.

Neighborhood Watch Program

Community education has become a major part of Crawford County Sheriff's Department's program for diminishing lawlessness. In the continuing effort to upgrade the program, three new audio visual films, "Child Abuse", "Toughest Gang", and "Every Eight Seconds" are available from the office for showing at schools, parent groups, civic clubs, and other law enforcement agencies.

The purpose of "Child Abuse", also called the "Silent Epidemic," is to provide accurate, current knowledge of the four categories of child abuse, and to give concerned citizens the chance to do something constructive about the problem. The four forms of child abuse are physical abuse, neglect, emotional abuse, and sexual abuse. It is the cause of much suffering, including broken lives and wrecked families.

"Toughest Gang" explains how the Neighborhood Watch program has become a proven crime deterrent. It also points out how simple it is to form and maintain a Neighborhood Watch program. "Every Eight Seconds" examines myths associated with burglary, the vulnerable points of entry into a home, and effective and common sense means of precautions one should take daily.

Additional information and answers to questions may be obtained by contacting Sheriff Joseph White, Crawford County Sheriff's Department, Phone 348-6341. These films were produced by the visual communications division of Syndistar, Inc., New Orleans, LA 70125.

G.O.P. to Meet

The Crawford County Republican committee will meet in the City Council meeting room in the Grayling City Hall at 7:30 p.m. Wednesday, November 28, 1984, for the purpose of reorganizing for the next two years. All members of the present committee, Republican candidates in the November 6 election, Republican office holders whose terms have not expired and any other citizen of the county who may be interested are requested to attend. Under Michigan state law the Republican candidates for State Senate, State Representative, and Crawford County offices in the last election in which their office was voted on, whether they won or not, are automatically members of the County Republican Committee for the next two years. An equal number of other citizens of the county who are not office holders at the state or county level will be selected at this meeting to complete the committee.

Other business to come up will be deciding on activities for the next year, including the Lincoln Day Dinner, and officers of the committee. Present plans call for the Lincoln Day Dinner to be on the Saturday night nearest to February 12, 1985.

Police Waiting for Lab Results

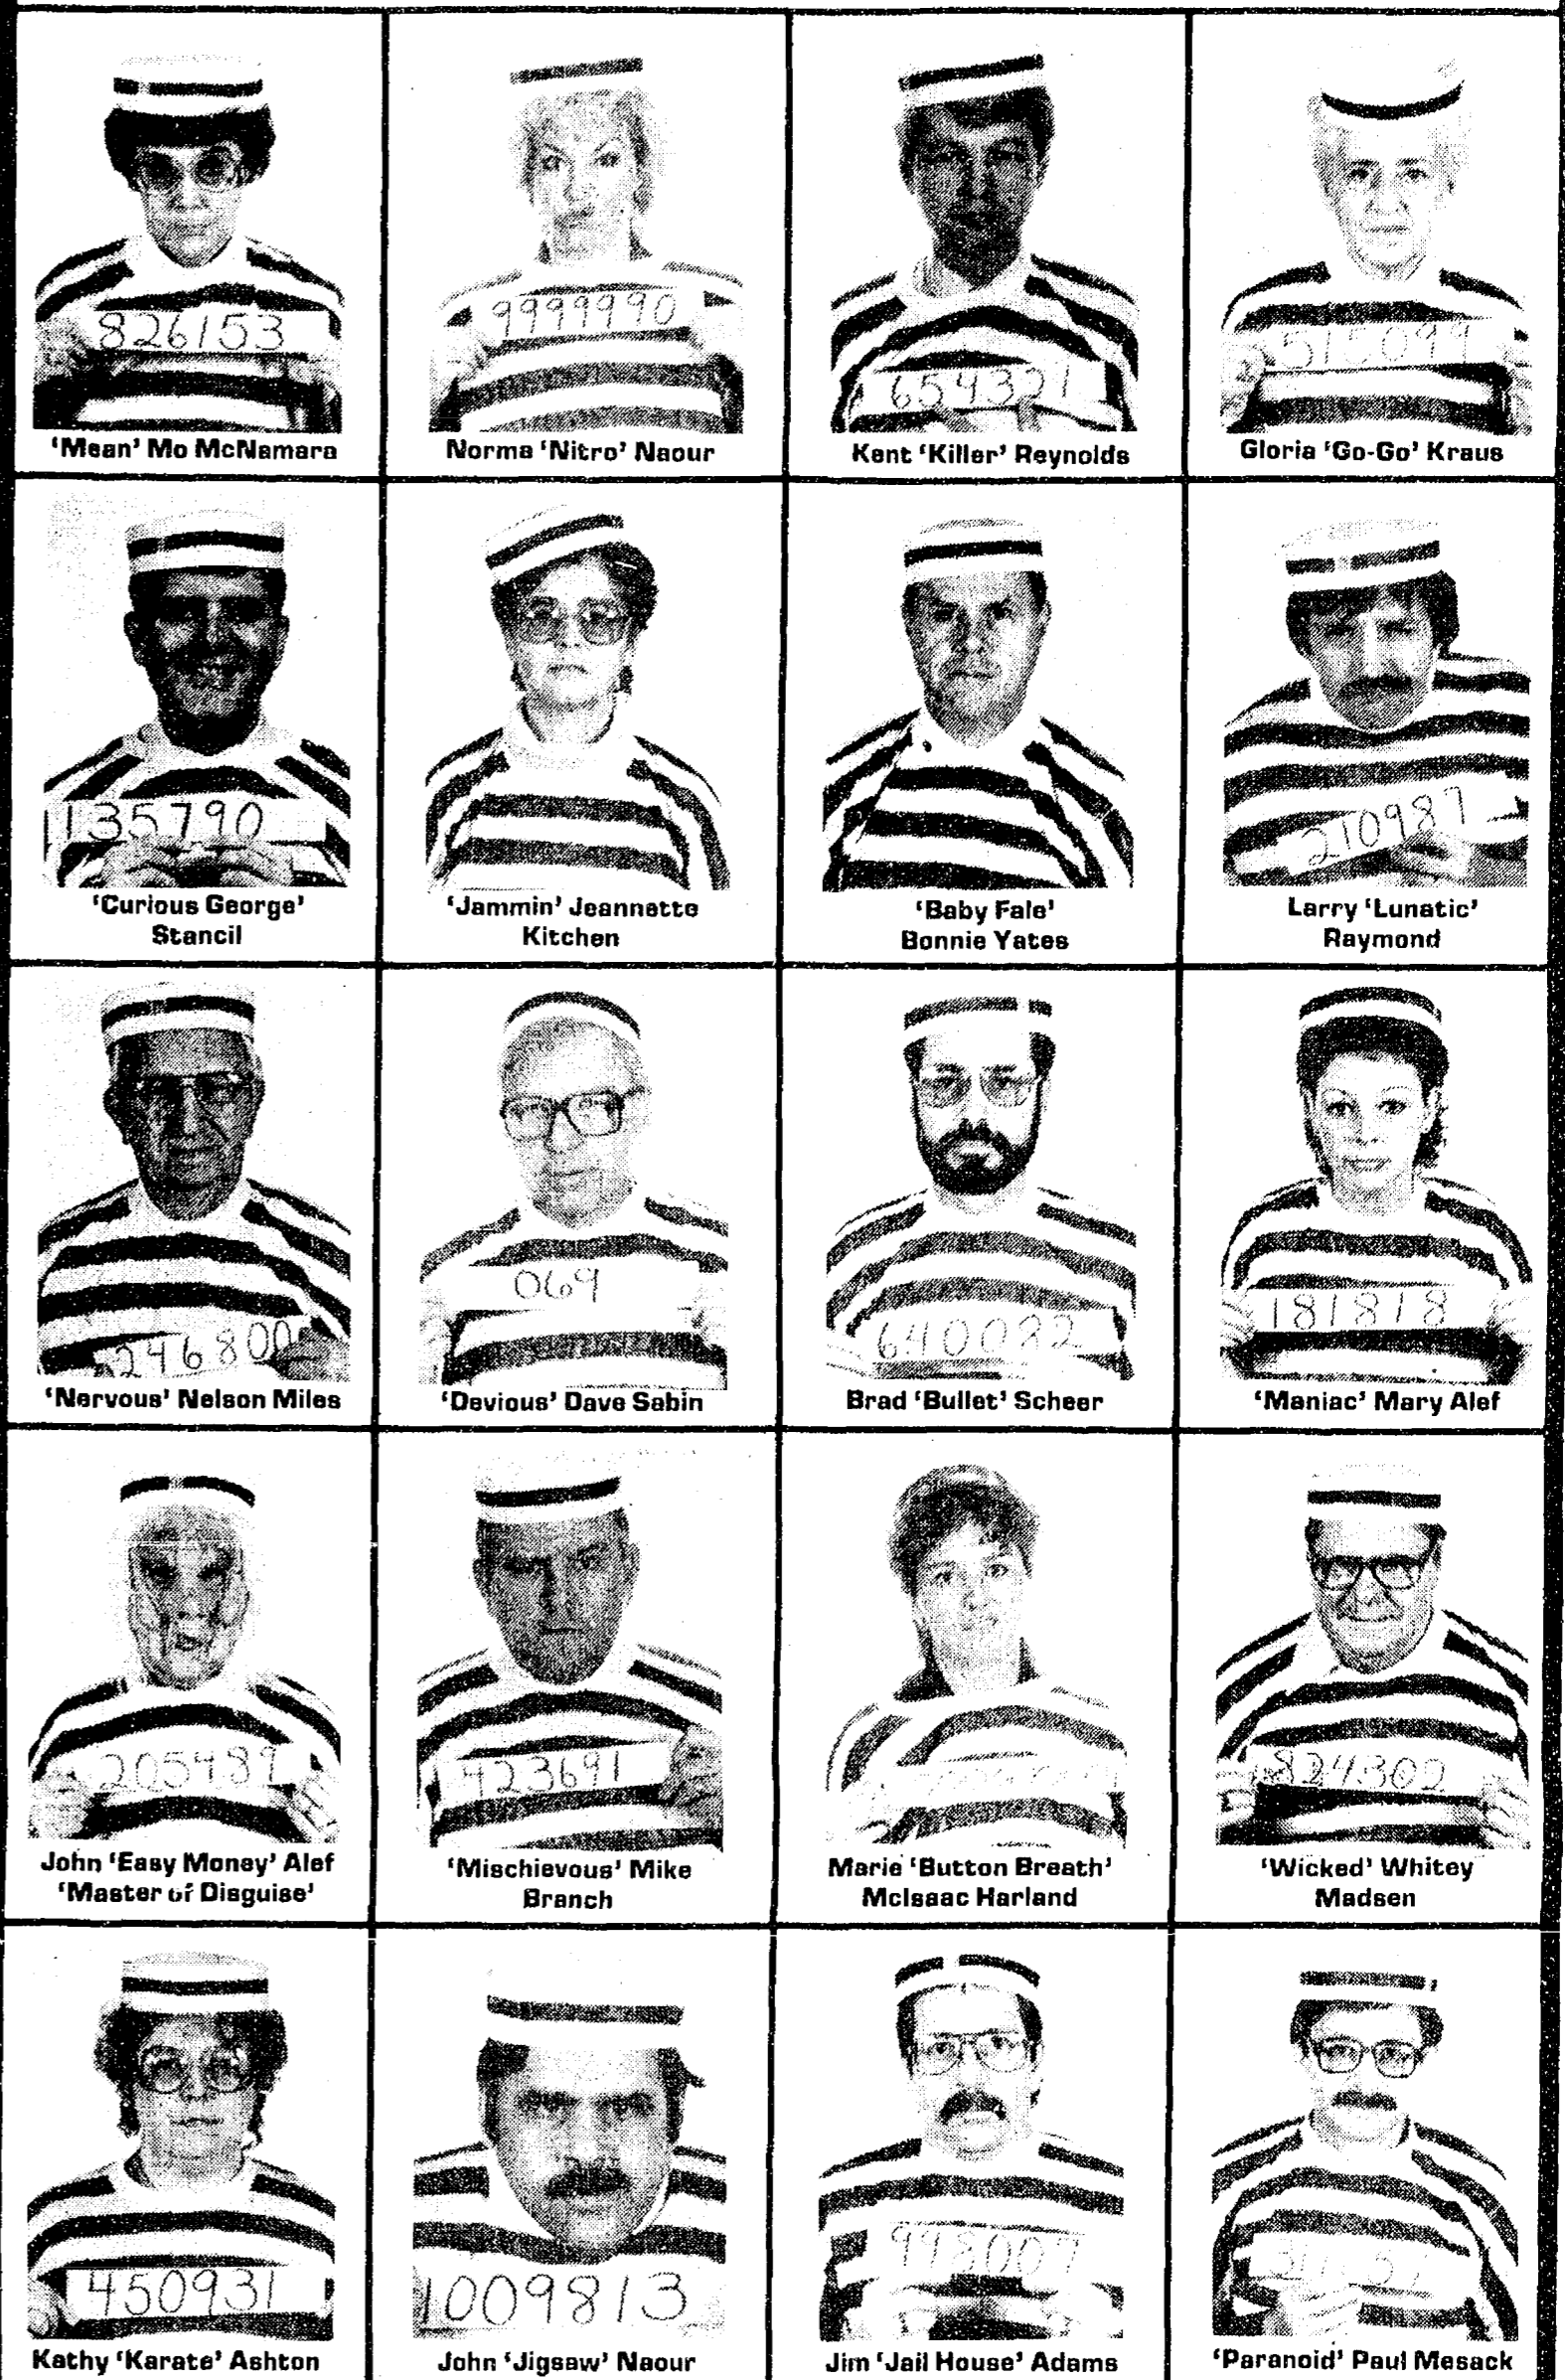

The Crawford County Sheriff Department will be waiting a month or more for lab results from the FBI and Michigan State Police crime laboratories concerning the death of a Beaver Creek man. Sheriff officers are waiting for reports before releasing more information about the death that occurred Thursday, Oct. 18.

Gen-Tel More Efficient Processing Service Orders

General Telephone's Northern Division customers now have a faster more efficient way of processing service orders, according to Bob Kowalski, northern division manager.

"Effective Tuesday, Nov. 6, General Telephone customers placing orders for installation, moves, changes or removal of telephone equipment have to call our Alma Business Office. The Alpena Business Office is no

longer open for that purpose," Kowalski said.

Alma now handles all service orders for the central and northern part of the state. The toll-free numbers to call are: 1-463-0210 for residential customers and 1-463-0533 for business customers. You might want to list these numbers on Page 2 of your telephone directory for easy reference. Please remember that this does not affect repair service. All repair numbers remain the same, he added.

The new system is faster and allows us easy access to customer records. It also allows us to respond to customer needs and provides accurate and up-to-date information, Kowalski said.

All telephone maintenance, repair, dispatch and assignment functions continue to be made from Alpena for all of our Northern Division exchanges.

RSVP Reports

The following article appeared in an October edition of Aging Alert. We felt it would be of interest to our volunteers plus other seniors in our community:

"Senior Citizens will be major beneficiaries of a new generic drug law which has just been signed by the President.

The new law eliminates lengthy, complicated retesting of low-cost generic drugs that have the same chemical composition as already-tested brand-name equivalents. This is achieved by extending the more simplified testing procedures in effect for drugs approved before 1962 to drugs approved after 1962.

As a result, consumers are expected to have many more chances between buying a high priced brand name drug or the same thing in a low cost "no brand" or generic variety. Over 150 popular drugs approved after 1962 - including Valium, Motrin and Inderal - have no generic equivalents because there was no simplified procedure for approval.

The new law also grants companies producing "pioneer drugs" an extra 5 years of patent protection - from 17 to 22 years - to make up for expensive research, development, and application costs. We are just one week into our Mail Campaign and appreciate the generous response from so many of our friends and supporters. Our goal has not yet been reached but we are well on our way and thankful for all your support!

RSVP is open to anyone 60 years or older who is interested in serving our community. Our office is at 308 Lawndale. If you're not a member, why not stop by and see us or give us a call at 348-4341 or 348-8322.

Thank You

To All Residents of Crawford County:

The Commission on Aging Board Members would like to extend our thanks and appreciation for the passage of the 1/4 mill from the tax rolls for senior programs.

We will do our utmost to provide services to all senior citizens in Crawford County both economically and efficiently, and we encourage your suggestions and ideas to better meet these goals.

PHONE TODAY. LOAN TODAY. When you finally find the car you want, finding the right financing is as quick as calling Old Kent Bank of Gaylord. Because in most cases we can approve your loan over the phone on the day you decide you want it. Usually within a few hours. So if you make your deal by 2:00 p.m. on weekdays, there's a good chance your new car will be parked in your driveway that evening.

COMPETITIVE RATES. LOWER PAYMENTS. At Old Kent Bank of Gaylord, you'll find competitive rates of interest. And, you'll have several financing plans to choose from. Take our variable rate loan for example. You get a lower interest rate. A lower monthly payment. And a payment that will never go up, even if interest rates go up. In short, our variable rate loan makes higher-priced cars more affordable.

So see your dealer and make your deal. Then give us a call or stop in to our Consumer Loan Department at Old Kent Bank of Gaylord. And drive away with...

PRAIRIE SCHOONER

Riding at anchor in the ports of Boston, New York, Philadelphia and Charleston were proud vessels eager to take you anywhere. Sails billowing daily, they embarked for Europe, Africa and the Orient.

But you couldn't book passage for Dakota territory. So pioneers loaded covered wagons for the trek West. It always makes sense, when you know where you're going, to go the best way!

Some poetic fellow, seeing the canvas rippling in the wind, dubbed those wagons "prairie schooners."

You'll find many earnest friends and neighbors worshipping when you come to Church this week. They have a goal, a destiny. It still makes sense... when you know where you're going... to go the best way!

Kindergarten

(Continued from Page 1)

went well.

Only two of the 14 students in the developmental Kindergarten were able to grasp a pencil with their thumb and forefinger when school started. Eleven of the 14 were unable to recognize their written names. Ten were unable to write their names.

Superintendent Kent Reynolds said these students are behind in physical development and the differences between them and students in the regular Kindergarten classes had nothing to do with how smart they are or how much learning potential they have.

School officials held conferences with parents and jointly decided which students would benefit the most from the new class. Reynolds said most parents have been pleased so far with the class. He also said the developmental Kindergarten has had a dramatic impact on the five regular Kindergarten classes.

In the past, students

behind in physical development needed plenty of extra time from an instructor and took away classroom time from students ready for a Kindergarten program. This fall, district Kindergarten instructors report they are accomplishing more.

Next year, the school district will initiate a first grade primer class for any students - from the developmental Kindergarten or regular Kindergarten classes - not ready for the regular first grade program.

The developmental Kindergarten is housed in the Frederic Elementary because of the available classroom space there. Grayling Elementary has no classroom space available and will be using a portable classroom again this year.

The class is taught this year by Patricia Hawkins.

Brine Percent

Brine is salt dissolved in a liquid. Recipes often call for a certain "percent." A 10 percent brine is 1 part salt to 9 parts water.

Advanced Studies Program

by Erin Hickey

On their second field trip of the year, Grayling High School's Advanced Studies Class spent Friday, October 5, at Kirtland Community College. Attending were: Fred Fisher, Julie Huss, Matt Klempp, Cris McLaughlin, Jeff McLaughlin, Riley McNamara, Kevin Reynolds, Amy Smith, and ASP teacher Mr. Tom Mills.

At KCC, the students were first shown the computer laboratory and were given a program to experiment with. They proceeded to the science lab and computer drafting room before heading to the library to see the many different sources of information available to them, most of which cannot be obtained in most high school libraries. Mr. Peter Cuicci, a KCC administrator and their guide for the day, then showed the students to the cafeteria where they received a free lunch. Students finished the day off with a hike through the campus nature trail.

MercyCare Clinic Opens

MercyCare Clinic — Sister Mary Ellen Howard prepares to cut the ribbon as Mercy Hospital officials Sister Generose, Sister Mary Justine Sabourin, Sigrid Schramm, Marilyn Naghtin, Patti Shepler, Deryl Holmes, Sister Marjorie Koerner, Shirley Hess, Ann Giest, Sister Dolores Smith, Jim Packard, Gilbert Ruiz, Jeff Richmond, Pat Ruddy, and Sister Mary Patrice look on with Grayling Chamber of Commerce members.

In the first six days of operation, 25 patients were treated in the MercyCare Clinic at Grayling Mercy Hospital. The clinic opened

November 1, to treat patients with minor illnesses and injuries during hours when physicians' offices are closed and on weekends and holidays.

Mrs. April Hively of Grayling brought her son Ryan into the clinic last week with lung congestion and a bad cough. Mrs. Hively said, "the clinic is a good idea. The clinic will be great for people who are unable to see their doctor during normal office hours."

Rachel Harwood, a six-year-old from Grayling, was brought in by her mother Jean with a sore throat. Mrs. Harwood said she got in to see a doctor within ten minutes and was very impressed with the clinic and

would definitely use it for her three children in the future.

The clinic was conceived out of a need to have more out-patient services at the hospital, according to Jim Packard, vice president of Mercy Hospital. "Hospitals are entering a time when more emphasis will be placed on prevention and keeping patients out of the hospital. Health care costs have risen sharply for the past few years to where they now exceed 10 percent of the gross national product. This is simply unacceptable in today's strained economy," said Mr. Packard, adding, "MercyCare is one way Mercy Hospital is helping to keep health care costs down."

To The Editor:

I feel I should answer Mr. Kones letter, first I do not want him feeling sorry for me. He should try it on himself.

Only three vets seen your letter and their reactions are unprintable. A lot seen a lot of action in the regular service, I guess they didn't know about the guard.

I'm happy for you for being in the Air Corps. Maybe we should have a parade and forget all the ones before and after. If concerned about national security why didn't you stay in or weren't they qualified enough for you.

I can't write what others have said but I will try to answer your letter even though it is not the real problem.

Yes, I want national security and have been for it all the time and had many arguments, and how can you argue against the case of hungry children and taking from old people. They have a valid case but to me if your dead or a slave is worse. I guess I'd rather be dead than red, but I will take the regular service. I can't see two week soldiers going into combat training on obsolete equipment, for civil disorders I think they are necessary but in wartime how much training do they get and by whom, and do they serve alone.

You say one company was in on D Day, I guess that's why all the beaches were so crowded. It would have taken just about all your 18 divisions to secure one beachhead. If they made it.

You never mentioned the Japs, you know they started the war at Pearl. They could have walked right through the states if they knew our strength, but they did try to find out with balloons. Also the sub activity on the East Coast which could have cost us a war, where was the guard?

As to the Jets and Choppers flying at tree top level I agree they need the training but why over the houses with all the open space. I am glad we have choppers to pick up the wounded and it has done so much to get them medical attention which they didn't get before.

As to drivers training, it is not the same at all. Maybe those pilots that flew through hangers were right when they said they needed the training for bridges and tunnels, etc. Of course they got grounded. As to modern warfare have you heard of nuclear war and conventional warfare, has changed so much it's not all in N. Europe.

My sister and husband and children were taken out of Lebanon and my uncle lived with us and he was gassed in W.W. I. He finally shot himself, I am referring to your comment on Lebanon and chemical warfare. I've never walked in Afghanistan, did you? or been exposed to any of the others.

You must be joking about the guard being the reason for not being invaded, that's so far out I wouldn't go into it.

I don't agree with your figures and as to a lunatic, Hitler was one but have you heard of communism which is a greater threat so why not think of now instead of what's gone.

This letter is too long now, tried to cut shorter but could not.

Sincerely,
John Riordan

Services Held For Viola Wingeier, 63

Viola A. Wingeier, 63, of Lovells died at Mercy Hospital Friday, November 9, 1984. Funeral services were held Sunday, November 11, at 3:00 p.m. at the Faith Lutheran Church, Bay City. The Reverend Glenn Sattmeier and the Reverend Dale Bond officiating. Burial was in Floral Gardens Cemetery, Bay City.

Born in Midland December 13, 1920, Mrs. Wingeier has made her home in Lovells for the past seven years, coming here from Bay City. She was currently serving as treasurer of the Mt. Hope Lutheran Women's Missionary League, was past-president of zone and past-district board member of the Lutheran Women's Missionary League, past-president of the Faith Lutheran Church Ladies Guild, member of the Valpo Guild, the Lovells Home Extension Guild, and the Cheerful Givers Club.

Survivors include her husband George W. Wingeier, one daughter, Karen Stewart of Tucson, Arizona and one son, Kenneth Wingeier of Utica. Also three sisters, one brother, and four grandchildren.

Pallbearers were, Claude Wuepper, Fred Mueller, George Klepper, Robert Schulz, Donald Kernstock, and Dennis Springer.

The family suggests memorial contributions be directed to the Bethesda Lutheran Home, Watertown, Wisconsin, or to the Mt. Hope Lutheran Church, Grayling, for the hymnal fund.

To The Editor:

In regard to the letter dated Nov. 2, 1984 the concern Mr. Langdon has expressed for the welfare of our community is gratifying. I am the first to agree with him that our moral standards are to be protected with all the force we as people and a community can muster. However, to deny one man or woman his or her rights is to deny all men and women of their rights. As human beings, we have been granted the gift of thought and an ability to express our thoughts in any way we can conceive of as a continual process of advance and decline. Can we as a people claim the right to disregard the rights of others on the basis that what they do offends our sensibilities? Mankind has argued the question, "Am I my brother's keeper" since the time the concept of morality first emerged out of the dim recesses of our earliest ancestors' minds, and at this point in time the question is still moot and will remain so, as long as humanity continues as a thinking and integrated society that is constantly in a process of dynamic change. Mr. Langdon asks us, Are we afraid to speak in absolute terms such as black and white, right and wrong, yes and no? In my experience I've never seen any instance where one person is absolutely right and the other absolutely wrong and in every argument there are points and counter points.

In the real world there is a concept called black and one called white and a vast grey area that lies in between. It is in the grey area that we all live as human beings in our day to day lives. It is here that we fashion a lifestyle that fits our human needs. As long as we have a choice to experience an event that may be distasteful to some, we are willing to let the status quo remain as it is we are allowing our freedom of choice to be protected and remain intact.

Dear Whitey:
While reading the October 25, 1984, publication of the Avalanche and, in particular, the article regarding the deadline for application for Miss Grayling, I was reminded that I might have something that would be of interest to you - or the pageant committee.

Enclosed you will find a section from "The Detroit Free Press" which had been used under the old linoleum in a house our friends purchased in Kalamazoo. The newspapers were taken up during remodeling.

Having had the honor of representing my "home town" as 1951 Miss Grayling and also as a "Page", along with Norma Lee Crawford and Larry McNamara, for the Winter Queen in 1939 (I have a picture of that also - I'm sure McNamara does too!), I found this old news article regarding the "first snow train very interesting - I thought you might also. I just wish there was a date (year) on it.

To re-acquaint myself, I was more commonly known as the younger sister of Mike Mathewson, Bud and Joe Jorgenson - or the former Betty Jeanne Mathewson. Helene and Earl "Doc" Mathewson were my parents. However, I have been Mrs. Max Haslem for the past 30 years and we have a cabin on the AuSable mainstream. If my memory serves me well, I believe you and brother Bud were good friends back in the 40's or so. I enjoy my weekly Avalanche - keep up the good work.

Sincerely,
Betty J. Haslem

P.S. It is possible that the young lady in the picture is Virginia Skingley Millikin. If so, she is a relative of mine.

Bits O Talk

Cindy and Lee Morrell of Burke, Virginia, are the happy parents of a baby girl, Tara Lee, who was born on October 11, 1984, at Alexandria Hospital. She weighed 8 pounds 6 ounces. The grandparents are Julie (Hunter) and Ben Webster of Carson City, Mi. and Betty and George Jones of Beaufort, S. Carolina. Great grandmother is Mrs. Matilda Hunter of Grayling. My apologies for my typewriter - this is a corrected copy! Fay.

Word was received last week of the death of Eleanor (Bugby) May of Rochester, Michigan. She was the daughter of the late James Bugby and Helen (Sherman) Bugby, all former Grayling residents.

Twenty-two years and two months after moving from Michigan, Gloria and Larry Frymier are at their Eagle Point road home at Lake Margrethe. The former Gloria MacNeven and Larry have spent their summers at the lake for many years. Larry has just retired from the U.S. Agency for International Development in Washington, D.C. where he was a Satellite Telecommunication Specialist.

No matter the day
No matter when...
There is always much to be thankful for.

Sometimes we are not even aware we had good fortune when we did.

The Grand Rapids Press article Oct. 29 entitled "Army explodes Souvenir Shell and shakes Downtown Grayling", made it known we were unknowingly blessed. My husband and I drove to Grayling for a color tour Oct. 13 & 14. During that time we stopped at your gift shop. (Weaver's). Enjoyed ourselves and found the people of Grayling gracious and friendly. Nothing to mar a beautiful time.

Yes, we were Blessed! So were the 550 people who made a 3 hr. stop off the train from Bay City, spending those hours in your downtown district.

Overheard them saying they had such a good time and hoped to repeat it again next year. Nothing to mar the day.

We were impressed with the Architectural features of your store front, we took pictures...photos to remember and recall the pleasant time we had. We're happy your store was not damaged.

This Thanksgiving Day besides all our blessings we will have one more to add to the list.

For Sure...Happy Thanksgiving Day!

Dear Mr. Madsen,
As the Crawford County Arts Council completes its third full year in existence, we would like to thank you and the Crawford County Avalanche for your continuous support of our Council through the regular publicity and coverage you have afforded us since 1981.

We sincerely appreciate your editorial policy which allows for publication of our news items; Jon Thompson's photography, reviews and articles; LeRoy Papendick's excellent layout of articles and advertisements; and your entire staff's cooperation and efficiency.

As we enter our fourth year of pursuing the goal of support for the visual and performing arts in Crawford County, the CCAC members recognize the Avalanche's large role in our success.

With sincere thanks and deep appreciation,

Nancy J. Lemmen,
Secretary

good students."

7. The undercover agent found that there exists in the high school a great deal of peer pressure against the use of drugs and especially against the dealing of drugs in the school. The agent felt that the drug problem within the school would be worse without this peer pressure.

The administration of Grayling High School has thoroughly evaluated the report of the undercover agent and is in the process of taking disciplinary action with three

students. In addition, they will be meeting with individual students and the parents of students mentioned in the report as having boasted of using drugs and getting "high" on weekends.

The Crawford AuSable School District Board of Education feels that the investigation of the undercover agent portrays the staff, student body and entire school in a positive light and pledges their continued support of efforts to maintain a quality educational environment.

We're "weaving" a magic Christmas this Sunday. Return with us to another time and re-ignite the memories of a childhood Christmas.

The spirit of the seasons shines out in music by Lyle and Gail Schwandt on the hammered dulcimer and other unique instruments.

Sensitivity to the season is seen in the craftsmanship of Judy Craft, our tole artist, as she provides special gifts for these favorite of holidays. And, Bill Spencer's wood duck carvings bring nature to rest at Weaver's, too. Last, but not least, the artistry of crochet is seen in the work of seventy-eight year old, Florence Weaver. "Weave" a magic Christmas with us Sunday.

The Icehouse Quilt Shop

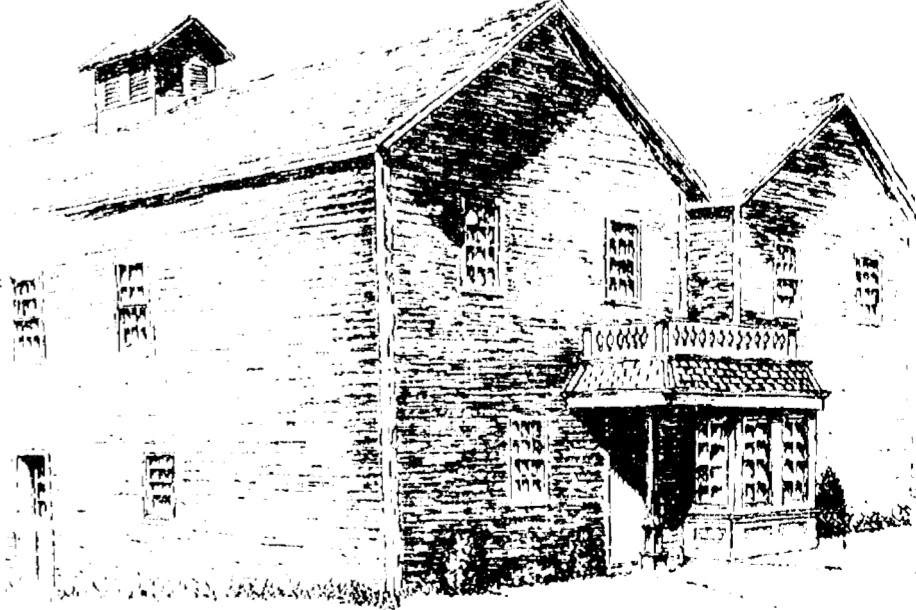

509 Norway 348-4821

Gifts that say "Made with love especially for you" are the highlighted suggestions at the Icehouse for this Christmas.

In a return to the nostalgia of yesteryear, we stress the handmade gift.

From kits to quilts to antiques and more, The Icehouse has a beautiful selection sure to please the Christmas spirit of everyone.

Our staff of creative crafts people will be on hand to demonstrate their talents and offer ideas for your gift giving. Join us for a festive afternoon this Sunday.

Charter Member of Delta PI Epsilon

Mt. Pleasant - Induction ceremonies were held Sept. 22 at the Mt. Pleasant Holiday Inn for 40 charter members of Delta Pi Epsilon's Gamma Sigma chapter, a national honorary professional graduate society in business education.

Area resident Gayle Praise, teacher at Grayling High School, Grayling, was among the inductees.

Requirements for Delta Pi Epsilon membership include: must have a graduate or undergraduate degree from Central Michigan University; must have a bachelor's degree from an accredited school; must have had eight semester hours of graduate work with a "B" average or better, with three of those hours in business teacher education; and there must be evidence that business education is the member's major field of interest.

The Avalanche — Your Want Ad Paper

The last thing you need when you're over 55, is a problem paying for your car insurance.

Age has its rewards. Sometimes. It does with Auto-Owners. They give good drivers age 55 or older a discount. So instead of raising your premiums or reducing your coverage you may pay a little less for your auto insurance. Auto-Owners respects maturity and a good driving record. Just ask your "no problem" Auto-Owners agent how he can save you money on your car insurance. When you hear the news, you'll be glad you've got a few years behind you.

TO THE CUSTOMERS OF MICHIGAN CONSOLIDATED GAS COMPANY

Case Nos. U-5451-R (1984) and U-6743-R (1984)

NOTICE OF HEARING TO REVISE CONSERVATION SURCHARGES

As more fully described below, if approved, the surcharge revisions sought would represent a combined decrease in the conservation surcharge levels now in effect by \$.0003 per Ccf.

In Case No. U-5451, Michigan Consolidated Gas Company (MichCon) was authorized by the Michigan Public Service Commission (Commission) to engage in its Interest-Free Financing (IFF) Program for the conservation of natural gas pursuant to 1978 PA 211 and the Commission's Residential Conservation Standards, R 460.2401 et seq. MichCon was also authorized by the Commission in the Case No. U-6743 to implement a conservation program pursuant to the Michigan Residential Conservation Service Plan (RCS Program) to offer certain specific energy conservation services to its residential customers. Under both of those conservation programs, MichCon recovers the costs associated with each program by separate unit surcharges included in the price of every metered unit of gas sold regardless of the amount of gas consumed by a customer. Also under each of MichCon's above-referenced conservation programs, comprehensive reconciliation proceedings have been established to enable the Commission to adjust, as necessary, the actual costs with surcharge revenues for the preceding surcharge periods and establish new surcharges for the ensuing 12 months. In each case the revised surcharge is netted against any overage or underage for the past surcharge period.

By Commission Orders issued November 16, 1982 and December 6, 1983 in annual surcharge reconciliation proceedings, revised surcharges were placed in effect for MichCon's RCS and IFF programs. The surcharges presently in effect amount to \$.00184 per Ccf (or \$.00181 per therm) for the RCS Program and \$.00059 per Ccf (or \$.00058 per therm) for the IFF Program.

On August 22, 1984, MichCon filed its application in Case Nos. U-5451-R (1984) and U-6743-R (1984), requesting authority for reconciliation and adjustment of its surcharge under its IFF and RCS Program. In addition to the application, MichCon filed consolidated written testimony and exhibits in support of the following:

CASE NO. U-6743-R (1984)

Under the RCS Program MichCon represents that Program costs in excess of Program revenues were \$574,039 as of the end of June 1984. MichCon further represents that estimated Program costs of the 12 months ending June 1985 will total \$4,493,000 and estimated audit revenues will be \$300,000.

MichCon estimates that revenue recorded prior to a proposed implementation of a revised surcharge in December 1984 will total \$1,443,000. Based on estimated rate schedule sales of natural gas of 197.1 Bcf for the period from December 1984 through June 1985, MichCon requests that the Commission authorize and approve a surcharge of \$.00168 Ccf (\$.00165 per therm) commencing in the December 1984 billing cycle, therefore enabling MichCon to recover the net costs for previously unrecovered Program costs and estimated Program costs for the ensuing Program year ending June 30, 1985.

CASE NO. U-5451-R (1984)

Under the IFF Program MichCon represents that Program costs in excess of Program revenues were \$29,363 as of the end of June 1984. MichCon further

represents that estimated Program costs for the 12 months ending June 1985 will total \$3,604,000 and estimated conservation contracts billed will be \$2,281,000.

MichCon estimates that revenues recorded prior to a proposed implementation of a revised surcharge in December 1984 will total \$465,000. Based on estimated rate schedule sales of natural gas of 197.1 Bcf for the period December 1984 to June 1985, MichCon proposes that the surcharge for the IFF Program be set at \$.00045 per Ccf (\$.00044 per therm) commencing in the December 1984 billing cycle, therefore enabling MichCon to recover the net costs of previously unrecovered Program costs and estimated Program costs for the ensuing Program year ending June 30, 1985.

Jurisdiction is pursuant to 1978 PA 211, MCLA 460.6c; 1909 PA 300, as amended, MCLA 462.2 et seq.; 1919 PA 419, as amended, MCLA 460.51 et seq.; 1939 PA 3, as amended, MCLA 460.1 et seq.; 1969 PA 306, as amended, MCLA 24.201 et seq.; and the Commission's Rules of Practice and Procedure, 1979 Administrative Code, R 460.11 et seq.; the National Energy Conservation Policy Act, 42 USC 8201 et seq.; and the Michigan Residential Conservation Service Plan.

NOTICE IS HEREBY GIVEN that:

A. A public hearing will be held at 9:30 a.m. on December 3, 1984 and continue, if necessary, on December 4, 1984 in the offices of the Commission, Mercantile Building, 6545 Mercantile Way, Lansing, Michigan, for the purpose of determining the appropriate surcharges to be applied to the bills of MichCon's customers under its IFF Program and RCS Program. Any interested persons may attend the hearing and participate, subject to the provisions of the Commission's Rules of Practice and Procedure.

B. Any person seeking to intervene, in accordance with Rule 11 of the Rules of Practice and Procedure Before the Commission, shall file with the Commission, on or before November 28, 1984, an original and 12 copies of a petition to intervene, together with proof of service upon MichCon.

Subparagraph (2) of said Rule 11 provides as follows:

"A petition to intervene shall set out clearly and concisely the facts supporting the petitioner's alleged right or interest, the grounds of the proposed intervention, and the position of the petitioner in the proceeding, so as fully and completely to advise the parties and the commission of the specific issues of fact or law to be raised or controverted." (Emphasis added.)

The Commission will require strict compliance with the above-quoted rule.

C. THE SURCHARGE ADJUSTMENTS DESCRIBED IN THIS NOTICE HAVE BEEN REQUESTED BY MICHIGAN CONSOLIDATED GAS COMPANY. THE MICHIGAN PUBLIC SERVICE COMMISSION MAY EITHER GRANT OR DENY THE REQUESTED ADJUSTMENTS IN WHOLE OR IN PART, AND MAY GRANT LESSER OR GREATER SURCHARGE ADJUSTMENTS THAN THOSE REQUESTED.

D. Michigan Consolidated Gas Company shall at least 10 days prior to the hearing on December 3, 1984, have available for inspection at each of its district offices in its gas service area a copy of its application, and the testimony and exhibits of its witnesses.
